Embrace the Season

Enjoy unique drinks that are inspired by what's trending across all Bevi machines and fitting of the current season.

Like Magic, it's There

Each seasonal beverage will appear as a button on your machine's screen without taking up another concentrate slot inside the Bevi machine. We mix what you've already got stocked!

Limited-time Only

Each season's offerings are currently planned to be available for a few months only, so enjoy them while you can – and ask your Bevi service provider how to get seasonal beverages added if you don't see them today.

FAQs

What are Bevi seasonal beverages?

Seasonal beverages are custom recipes that combine flavors and enhancements already installed in a Bevi machine. While users can mix flavors themselves, these recipes take out the guesswork, letting them create a perfect drink with a single selection.

How does Bevi come up with recipes for its seasonal beverages?

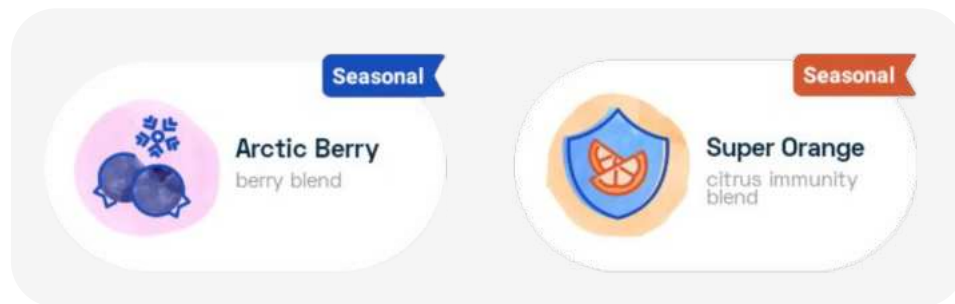

We analyze drink combination trends from thousands of Bevi machines – and run blind taste tests, too. From the 48,000 possible drink combinations a user can make with our Standup 2.0 machine, we've identified winning recipes and the seasons when they're most popular.

Why did Bevi craft these recipes?

At Bevi, we value customer feedback and use it to create a better experience for everyone. Many of our customers have asked for more flavor variety and seasonal options to keep things fresh and exciting. With our new seasonal beverages, we're excited to deliver on those requests, giving you more choices without the need to purchase additional flavors. It's all part of how we're working to make hydration as enjoyable and customizable as possible.

How will seasonal beverages be displayed on the Bevi screen?

Like every other flavor or enhancement, a seasonal beverage shows up as a button on the Bevi screen. It can be dispensed on its own, or in combination with other flavors and enhancements.

Questions?

On which Bevi machine models are seasonal beverages available?

Since January 2025, qualifying Standup 2.0 machines are showing a seasonal beverage option. By end of March 2025, qualifying Countertop and Standup 0.75, 1.0, and 1.5 machines will also show a seasonal beverage option. Please note machines need to be online and up-to-date to receive this feature.

I see a seasonal beverage option on my Bevi machine's screen, but I cannot select it [option is labeled "OUT" and is grey]. What's going on?

At least one of the flavors or enhancements that make up that seasonal beverage recently ran out in your machine. To keep a seasonal beverage in stock, ensure that the flavors or enhancements that make up that offering stay in stock.

Why doesn't my Bevi machine show a seasonal beverage?

A seasonal beverage will only show up on the screen if the flavors or enhancements that make up that offering are installed. If your machine has eight flavors and no enhancements installed, there will be no seasonal beverage shown.

How often will the seasonal beverages change?

We will be launching new, limited-edition seasonal beverages approximately every three months throughout the year.

What seasonal beverages should I expect next?

This will be communicated to Bevi providers in the weeks leading up to each season.

What if I have a question that isn't answered here?

We'd love to hear from you! Please send an email to support@bevi.co with the customer name and Bevi machine information.
