# Tech Bulletin: **Enable Touchless Features on your Bevi**

NOTE: Your customer may have already enabled the Touchless Feature on their own. If the Main Screen of the Bevi has a QR Code as depicted in Step 3, The touchless option is enabled.

Step 1	Step 2	Step 3
A. Enter the Ingredients screen to get to the touchless toggle feature	A. Toggle the Touchless option to "On"	A. QR Code will now appear on the Main Screen
Note: Lights change colors, which is normal.	**Note:** If this option does not appear, check to see if the Bevi is connected to the internet	

Step 4

A. Test the Touchless Option
B. Open your camera
C. Point the camera at the QR Code
D. Your phone will prompt you to open an application
E. Press "Yes"
F. The Touchless App will appear on your phone screen.
G. Place a cup in the dispense area of the Bevi
H. Touch a drink option on your phone
I. A drink will be dispensed in your cup!

Your customer is ready to use the Touchless Option!
