

**Carbonator Repackaging Instructions**

**RMA**

9/28/20

## Carbonator Repackaging Options

- Option 1 - Off-The-Shelf Packaging
  - The Bevi carbonator can be returned in a generic overbox with adequate interior packaging:
    - Overbox must have dimensions  $\geq 22'' \times 22'' \times 22''$  and should not exceed  $30'' \times 30'' \times 30''$ 
      - An example of an acceptable box is [S-4798](#) from Uline
    - Bubble wrap, or a comparable material, must be used to pack fully below, above, and around the carbonator and fill all empty volume within the overbox
    - The box must be securely taped shut and secured to a pallet with shipping straps and/or plastic wrap
- Option 2 - Bevi Packaging
  - The Bevi carbonator can be returned in its original packaging or packaging from a different Bevi carbonator unit
    - The carbonator must be packed within the overbox using the original foam pads or replacement bubble wrap
    - The box must be securely taped shut and secured to a pallet with shipping straps and/or plastic wrap

## Carbonator Packaging Instructions

1. Layer  $\geq 2$ " of bubble wrap along the bottom of the box
2. Place and center the carbonator feet down within the box
3. Use bubble wrap (or similar material) to completely fill in the empty volume around the perimeter of the carbonator
4. Use additional bubble wrap as needed to fill any voids within the box pack
5. Layer  $\geq 2$ " of bubble wrap along the top of the carbonator
6. Tape the box shut
7. Place the sealed box in the center of a pallet
8. Secure the box to the pallet via straps and/or shrink wrap

When shipping multiple carbonators, individually boxed units can be combined up to 8 per standard pallet using a configuration of 4 boxes per layer, stacked 2 high.
